

Fee for Service

Montage Training Services has a substantial list of qualifications that can be delivered as full qualifications, broken down into Skills Sets (a selection of 3-4 units making up a specific skills set) or delivered as individual units conducted as workshops.

Individuals may or may not be eligible to attract funding under an available funding stream, however are still able to undertake any of MTS's qualifications on a Fee for Service basis. Full course fees will be applied to this delivery method, however payment plans are available for those who wish to take up this option.

Skill Set training is a great way for an individual or organisations to increase their knowledge and skills through studying a series of units rather than a full qualification. This model is ideal for those who have already received a qualification and are now looking to add further skills to their resume.

MTS's Workshops are industry designed around specific needs and shortages in the sector. MTS are able to design and implement a workshop to suit an individual or organisation and provide participants either a Certificate of Attendance or a Certificate of Attainment for those who decide to complete assessment tasks and submit to our training department. A Certificate of Attainment is formal recognition of successful completion of a unit of competency.

If you would like to discuss delivery of Fee for Service qualifications, development of workshops or Skill Set training, please contact Chris on 0412-745-003
